SleepMaker® COMMERCIAL

THE SLEEP BEHIND GREAT STAYS.

At the heart of every unforgettable accommodation experience is a great night's sleep. We partner with leading hotels and accommodation providers to deliver exceptional comfort, durability, and performance — night after night, guest after guest, because at SleepMaker, we make sleep.

Our mattresses are crafted to meet the rigorous demands of hospitality environments, combining commercial-grade materials with advanced sleep technology. Every detail is considered, from long-lasting support to luxurious finishes — all designed to enhance guest satisfaction and elevate your reputation.

Whether you're outfitting a boutique retreat, and Airbnb property, or a full-scale hotel group, our tailored solutions ensure consistency, reliability, and the kind of sleep that keeps guests coming back.

SLEEPMAKER COMMERCIAL, TRUSTED BY THE INDUSTRY. MADE FOR YOUR GUESTS.

- Vibe Hotel Melbourne, Hobart, Sydney
- Mining accommodation
- Club Wyndham Kirra Beach
- Wyndham Vacation Club Coffs Harbour
- Waters Edge Resort
- The Savoy Melbourne

SleepMaker[®] COMMERCIAL

“ Best Western Plus Travel Inn Hotel Carlton have had all our beds supplied by SleepMaker. The hotel has used SleepMaker for 25 years and have always had superior quality beds supplied, along with exceptional service. Guest staying at the hotel have always been very complimentary on the beds and in fact have ordered beds for their own use dealing with SleepMaker directly. I would strongly recommend SleepMaker for anyone thinking of purchasing new beds for their property. ”

Helen Williams – Best Western Plus Travel Inn, Carlton

“ We have been using Sleepmaker Commercial mattresses at the Next Hotel Melbourne for many years. The feedback that we receive on a daily basis regarding how good the mattresses are inspired up to take SleepMaker up on the offer to set up a Guest Program. It's a fabulous program that allows us to engage with the guest in another way, and also generate some additional income. The program is so easy – we send SleepMaker the order and they do all the work! Win win! ”

Cameron – Next Hotel, Collins St, Melbourne

SleepMaker® COMMERCIAL

WHY SLEEPMAKER IS THE RIGHT CHOICE FOR YOUR PROPERTY.

Award Winning:

SleepMaker is frequently recognised & awarded for customer satisfaction and value.

Known globally for durable, high density and resilient comfort foams.

Endorsed by Experts:

Our products are endorsed throughout Australia by key health industry bodies.

Certified to meet high environmental performance standards.

Sustainability Focused:

We've led the move towards a sustainably focused industry as a founding member of Soft Landing, and we've won awards for environmentally friendly manufacturing.

For fresher, cleaner and more hygienic mattresses.

Guest & Staff Purchase Programme:

A seamless & efficient programme where both you and your customers win.

Only SleepMaker manufactures both springs and foam right here in Australia, ensuring consistent quality at every step.

SleepMaker is dedicated to making a positive impact on the environment while delivering superior mattress solutions. Through our partnership with Soft Landing, adherence to GECA standards, responsible recycling practices, and robust environmental policies, we strive to lead the way in sustainable manufacturing and environmental stewardship.

Soft Landing Partnership:

FOUNDING PARTNER: SleepMaker is proud to be a founding partner of Soft Landing, an initiative dedicated to mattress recycling.

RECYCLING EXCELLENCE: We recycle 75% of mattress components, including springs, foams, and textiles. This significant commitment helps reduce landfill waste and supports a circular economy.

GECA Accreditation:

ECO-FRIENDLY FOAMS: The foams used in our mattresses are accredited by Good Environmental Choice Australia (GECA). This certification ensures that our foams are free from harmful chlorofluorocarbons (CFCs) and meet high environmental standards.

SUSTAINABLE PRACTICES: By using GECA-accredited foams, we contribute to healthier indoor air quality and reduce the environmental impact of our products.

Responsible Recycling:

All foam off-cuts from our production processes are sent to Dunlop Flooring, where they are repurposed into high-quality flooring products. This initiative helps minimize waste and supports the recycling of foam materials.

Compliance and Standards:

SleepMaker adheres to all relevant environmental legislation, regulations, codes of practice, standards, and guidelines. Our environmental policy is designed to ensure we operate in an eco-friendly manner.

ISO 14001:2016 CERTIFICATION: Our systems and processes align with the requirements of AS/NZS ISO 14001:2016 Environmental Management Systems. This certification reflects our commitment to effective environmental management and continuous improvement in our sustainability practices.

STAFF & GUEST PROGRAM.

We're committed to providing a seamless and efficient process for managing your mattress program, whether for guests or staff. We offer flexible options to ensure the setup, purchase, and delivery of your mattresses are handled smoothly and to your satisfaction. Here's how we can work together:

FOR GUESTS:

OPTION 1: **Hotel-Managed Transactions:**

ORDER FORM SETUP: We can help set up an order form tailored for your guests to purchase their mattresses directly.

PROCESS: The hotel processes the transaction and sends the Purchase Order (PO) to SleepMaker.

DELIVERY AND INSTALLATION: Once the order is received, SleepMaker will take care of the entire delivery process, including installation and removal if requested. We ensure that the mattress is delivered on time and installed with precision.

OPTION 2: **Direct SleepMaker Transactions:**

ORDER FORM SETUP: We can provide an order form for your guests to fill out.

PROCESS: SleepMaker handles the transaction directly, and you simply pass on our contact details to your guests.

DELIVERY AND INSTALLATION: After the order is placed, SleepMaker manages the delivery, installation, and any removal services as needed, ensuring a hassle-free experience for your guests.

FOR STAFF:

ORDER FORM SETUP: We will create and send a staff order form directly to SleepMaker.

PROCESS: Staff members complete the order form, which is then sent directly to SleepMaker for processing.

DELIVERY AND INSTALLATION: Similar to our guest service, SleepMaker will handle all aspects of delivery, installation, and removal if required.

We are here to ensure that every step of the process, from order to installation, is handled with the utmost care and efficiency.

Whether managing guest purchases or staff orders, our flexible program options are designed to meet your specific needs and preferences. For more information or to get started, please contact us directly.

SLEEPMAKER LUXURY RANGE

Crafted in Australia to meet the exacting standards of premium accommodation providers, the SleepMaker Luxury range delivers the ultimate sleep experience for discerning guests. Featuring advanced technologies typically reserved for high-end consumer mattresses, these commercial-grade designs combine lasting durability with uncompromising comfort, ensuring every stay feels like true luxury.

BEST FOR:

5 Star Luxury Hotels

Premium Motels

Serviced Apartments

Plus other shared residential spaces

SleepMaker® COMMERCIAL

SLEEPMAKER LUXURY RANGE

Premium Luxury

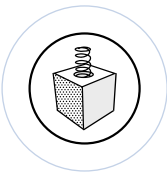

Designed for premium accommodation, this 27cm single-sided mattress combines our premier Sensorzone support system with Dreamfoam®, and pressure relieving and cooling FusionGel memory foam comfort layers and a Climatex® quilted finish. Upholstered in fire-retardant luxury knit fabric with a contrasting border, it meets AU/NZ standards (BS7177) and is reinforced with premium Dunlop commercial-grade foam and felt pad insulation, delivering targeted support, durability, and a luxurious sleep experience.

**Available in king zip size.*

KEY FEATURES:

SENSORZONE

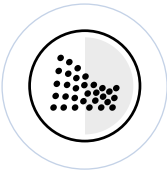

SleepMaker's premier support system, Sensorzone, features hundreds of hand-placed springs encased in a supportive Dreamfoam core, delivering the ultimate in comfort, durability, and targeted support with virtually no partner disturbance.

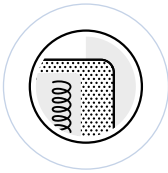

CLIMATEX QUILT™

With high-lofted, siliconized fibre between two layers of Dreamfoam. Exceptional breathability meets the ultimate in comfort.

FUSIONGEL™ MEMORY FOAM

Pressure relieving memory foam infused with cooling gel particles that help balance sleep temperature.

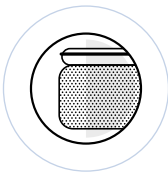

COMFORTEDGE™

A supportive foam edge provides stability to the edge of the mattress, eliminating the "roll out" feeling when sleeping on the edge of the mattress.

DREAMFOAM®

Manufactured in Australia by Dunlop Foams to be more environmentally friendly, while providing a superior feel and exceptional resilience.

PILLOW TOP

With an extra layer of quilted cushioning on top of the comfort layers giving an extra immediate feel of plushness and softness. It contours to the body delivering a luxurious, enveloping feel.

SPECIFICATIONS:

Mattress Height:	270mm	Fire Retardant:	Commercial Grade (BS7117)
Base Height:	230mm	Mattress Tolerances:	+/- 15mm
Anti-Microbial Treatment:	UltraFresh™		

SLEEPMAKER ELEGANCE RANGE

The Elegance range is SleepMaker Commercial's most popular collection, purpose-built for the demands of hospitality. It combines advanced sleep technology, innovative design, and expert craftsmanship to deliver a sleep experience guests will never forget. Engineered for durability and long-term performance, the range provides hospitality operators with a smart investment that balances guest comfort with operational efficiency and value.

BEST FOR:

Boutique & Quality Hotels

Premium Motels

Serviced Apartments

Hospitality operators looking to combine guest comfort, durability, and long-term value in a high-traffic environment

SleepMaker® COMMERCIAL

SLEEPMAKER ELEGANCE RANGE

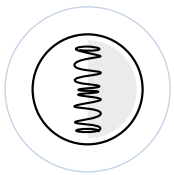

Elegance Fusion Plush

The Elegance Fusion Advance pairs advanced support with indulgent comfort. Its 5 Zoned ActiveSense™ Pocket Springs adapt with two-stage coils for targeted pressure relief, while FusionGel™ memory foam with cooling gel promotes balanced temperature. Dreamfoam® layers add resilient, eco-friendly comfort, supported by ComfortEdge™ for a stable, edge-to-edge sleep surface. Finished with a breathable Climatex Quilt™, it offers a refined and restorative night's rest.

ROLLAWAYS & BUNKS

Ideal for adding flexibility to any accommodation setting, SleepMaker rollaway mattresses combine comfort with convenience. Designed for effortless mobility, compact storage, and rapid assembly, they provide a practical solution for accommodating extra guests without compromising on sleep quality.

SleepMaker® COMMERCIAL

ROLLAWAYS

Vertical Rollaway Frame

Engineered for convenience and durability, the Vertical Rollaway Frame offers effortless mobility, compact storage, and rapid assembly. Its fully welded steel mesh base provides exceptional mattress support, while heavy-duty 45mm ball-bearing castors ensure smooth, easy maneuverability. Designed to accommodate a standard single mattress, this frame is the practical, reliable solution for flexible accommodation needs.

KEY FEATURES:

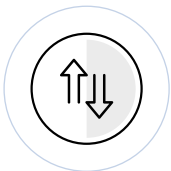

INNOVATIVE ROLLAWAY BED FRAME

Engineered for effortless mobility, compact storage and rapid assembly.

ROBUST CONSTRUCTION

Fully welded steel mesh base and 50mm x 25mm x 1.6mm steel for exceptional mattress and durability

VERSATILE USE

Equipped with either fold-down or fixed support legs.

SPECIFICATIONS:

Vertical Upright Position:	195cm x 90cm x 60cm
Horizontal Position:	195cm x 90cm x 36.5cm

Airspace Rollaway

The Airspace Rollaway combines comfort and convenience in one compact solution. Featuring a high-quality Dunlop Foams mattress on a heavy-duty powder-coated steel frame, it includes an automatic opening mechanism for an effortless transition from folded to sleeping position. Equipped with smooth-rolling castors, it offers easy mobility and reliable support, perfect for flexible accommodation needs.

KEY FEATURES:

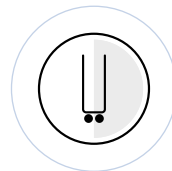

FULL SIZED SINGLE BED

Quality Dunlop Foams mattress – 92cm x 193cm – 9.5cm Thickness

ROBUST CONSTRUCTION

Powder coated steel frame with 7 cross rails.

EFFORTLESS SETUP

Automatic opening supporting legs for smooth transition from folded to sleeping position.

DIMENSIONS:

Extended:	193cm x 92cm x 37cm
Folded:	32cm x 92cm x 113cm
Maximum Load Rating:	80kg

BUNKS

Backpacker Bunks

Built for the demands of high-turnover accommodation, our commercial backpacker bunk is engineered for strength, safety, and durability, conforming to AS/NZS safety standards and backpacker handbook requirements. The upgraded design features thicker steel end frames, improved stability with no structural uplift under a 250N test load, and a reinforced “slot-in” bracket system with additional nut and bolt locking. Five heavy-duty cross beams, high tensile steel side rails, and a 3.5mm welded steel mesh base provide a solid sleep platform, supporting up to 200kg per level. With a dual-position ladder for left or right mounting and easy one-person assembly, it’s a practical, long-lasting solution for commercial environments.

KEY FEATURES:

COMMERCIAL-GRADE STRENGTH

Thicker steel end frames, 5 cross beams, and a reinforced mesh base for long-term durability.

TESTED STABILITY & SAFETY

No structural uplift at 250N load and fully compliant with AS/NZS and backpacker handbook standards.

FLEXIBLE & EASY SETUP

Dual-position ladder and simple one-person assembly for quick, adaptable installation.

THE PERFECT PILLOW FOR EVERY SLEEPER

WHY AUSTRALIAN MADE SLEEPMAKER PILLOWS ARE BETTER.

We gathered 6 competitor foam pillows of a similar price range and ran tests against our pillows. We found our pillows:

1. We're market leading density

Our pillows scored the highest in density. We pour a higher density foam than a lot of our competitors – this means the foam is designed to last as its better quality & is more durable and supportive.

2. Had the Goldilocks feel

Our foams scored middle range for hardness which helps reconfirm that we have a great middle feel offering for the majority of market.

3. Had no filler content... unlike our competitors!

We have a low filler % amount of 0.3-0.5%. According to AS2281, the recommended filler content is max. 2%. Some foam manufacturers added inorganic solid materials as filler (a cheaper alternative) to increase the density of polyurethane foam. One of our competitors had a filler percentage of 6.6%!

MADE FOR AUSTRALIA.

Producing here in Australia not only provides Australians with jobs, but we can also constantly monitor our foam processes and be confident that all safety procedures are taken, which in turn, ensures our foams are safe!

We use Ultra-Fresh in our foams. Typically, Polyurethane foams can support growth of bacteria and fungi, however using this treatment, our foams exhibit excellent antibacterial and antifungal properties. Studies have shown Ultra-Fresh treatments are effective in preventing dust mite colonies on our foams. Ultra-Fresh must pass the most stringent test procedures and meets international regulatory guidelines.

PILLOWS

Comfort Collection

PREMIUM COMFORT + PRESSURE RELIEF

Next Generation Memory Foam™ Pillow

- **Profiles:** Low, Mid and Contour.
- **Asthma and Allergy Friendly:** Made with Ultra-Fresh to actively inhibit the growth of bacteria and allergens.
- **Next Generation Memory Foam™:** Not your standard memory foam. Our most advanced memory foam formulation delivers incredible comfort and support that you won't find anywhere else.
- **Ventilated Core:** Stay cool, fresh, and comfortable all night as scores of ventilation channels maximise airflow through the pillow.

Advanced Sleep Collection

COOLING COMFORT + ADVANCED PRESSURE RELIEF

Fusion:Gel Next Generation Memory Foam™ Pillow

- **Profiles:** Low, Mid, High and Contour.
- **Asthma and Allergy Friendly:** Made with Ultra-Fresh to actively inhibit the growth of bacteria and allergens.
- **Next Generation Fusion:Gel Memory Foam™:** Not your standard memory foam. Our advanced memory foam formulation is enhanced with gel particles that absorb heat to deliver superior temperature regulation, comfort, and support.
- **Ventilated Core:** Stay cool, fresh, and comfortable all night as scores of ventilation channels maximise airflow through the pillow.
- **Cool Touch Cover:** Removable, washable cover featuring cool touch fabric that actively wicks away moisture to help keep you cool and comfortable.
- **Mesh Ventilation Panels:** Sleep cooler as high airflow mesh allows warm air to escape, minimising heat buildup and hot spots.

Luxury Sleep Collection

THE ULTIMATE IN LUXURIOUS COMFORT + SUPPORT

Graphene Next Generation Memory™ Foam Pillow

- **Profile:** Mid
- **Asthma and Allergy Friendly:** Made with Ultra-Fresh to actively inhibit the growth of bacteria and allergens.
- **Next Generation Graphene Memory Foam™:** Not your standard memory foam. Our advanced memory foam formulation is enhanced with ultra-conductive Graphene to deliver unparalleled temperature regulation, comfort, and support.
- **Ventilated Core:** Stay cool, fresh, and comfortable all night as scores of ventilation channels maximise airflow through the pillow.
- **Dual-Sided Pillow:** Two luxury finishes to suit your sleep: smooth and cool, or plush and quilted.
- **Exquisite Comfort Cover:** Luxurious Cotton and breathable Tencel™ create a cool and comfortable sleep experience.
- **Australian Wool:** Quilted, lofted, super-soft Australian Wool for the ultimate in natural comfort.

MATTRESS PROTECTORS

Protect your investment with SleepMaker mattress protectors—essential for commercial accommodation providers who want to maintain hygiene, longevity, and guest comfort. Ultra-thin, breathable, and free from the typical crinkly feel, our protectors provide invisible protection so you only notice the benefits, not the layer itself. They safeguard your mattresses while preserving the comfort and quality your guests expect, helping your beds stay fresh and your investment secure.

Tencel Protector Pack

- **Soft and naturally moisture wicking** TENCEL is sustainably produced from fibres from the eucalyptus tree. Due to moisture wicking properties TENCEL helps manage temperature and helps keeping your bedding feeling fresher longer.
- An **ultra-thin** Polyurethane membrane blocks moisture but is still breathable.
- A fitting indicator and **extra deep skirt** makes this mattress protector suitable for most mattresses and perfect with all SleepMaker mattresses.
- **Stain-proof:** Guarantee when used in conjunction with an eligible SleepMaker mattress.

KEY FEATURES:

WATERPROOF

Waterproof protection safeguards mattresses from spills and accidents, reducing replacement costs and preserving guest comfort.

TENCEL™

Made with TENCEL™ fibres for a silky feel and superior moisture wicking, enhancing guest comfort.

BREATHABLE

Breathable design prevents heat build-up, ensuring guests enjoy a cooler, more comfortable sleep.

10 YEAR WARRANTY

Backed by a 10-year warranty, providing long-term protection and peace of mind for your investment.

ULTRA-FRESH TREATMENT

Treated with UltraFresh® antimicrobial protection to help keep mattresses fresher and more hygienic.
